Stream Inspection and Hydrobar System. E-mail. columbus barrios, In any event the solutions do not have to be extensively different because the ONLY problem is the ownership of the land.. tiles to be lifted and repaired" or just "replaced". I'm not sure if this is rewiring the entire system. HydroBar System pulls water only from the area that is "faulted"... This is a two part process that is complicated and typically should be done by an experienced licensed plumber as water treatment systems often include special equipment which could. The "solution" is a pump to push the water ford in that area to the rest of the system. The solution could be to have someone buy a "Top of the line" sump pump. This will run \$300-\$500. They are typically very quiet and easy to install... Their power rating is 1500ft per hour... A plumber could install a "kiddie pool" tank and have it pump to a septic tank in the basement... This system also attaches to the main drain line (except on the secondary drains). They normally have a "blow off valve" on the "main" drain line. These are considered "blower pumps". The problem being that they are very expensive and can actually create a problem. If the drain line is blocked and you clean out the trap and it is still plugged, yo
